

HSC Injury Benefit Scheme Damages and Compensation - Factsheet

If the applicant gets damages and compensation for the injury, these will be taken into account when the level of Injury Benefits awarded is assessed.

This may mean paying back some or all of the HSC Injury Benefits received where compensation has also been received for the same injury. It may also reduce any future HSC Injury Benefits.

If the applicant is claiming damages or compensation they should notify their legal advisor that they are claiming HSC Injury Benefits and draw their attention to the Scheme Regulations.

Anyone claiming HSC Injury Benefits must inform the HSC Pension Service as soon as their damages (or compensation) claim is settled.
