Consideration of entitlement to ill-health retirement benefits

Important: Please complete this form in BLACK INK

Part A To be completed by the **Employing Authority**

Part B To be completed by the **Member**

Part C To be completed by the **Occupational Health Doctor** – where this is not possible, the report can be completed by your **GP/Specialist**

Guidance for members

The HSC Pension Scheme provides two levels of ill-health retirement benefits, which are dependent on the severity of your condition and the likelihood of you being able to work again.

To qualify for ill-health retirement benefits you must:

- retire from pensionable employment because of illness or injury, **and**
- be permanently incapable of efficiently carrying out the duties of **your employment** because of illness or injury – **Tier 1 pension**, or
- be permanently incapable of engaging in **regular employment** of like duration because of the illness or injury – **Tier 2 pension**.

Tier 1 pension

If you are assessed as being unable to carry out the duties of your own employment you will be entitled to the early payment of the retirement benefits you have earned to date without any reduction.

Tier 2 pension

If you are assessed as being unable to do regular employment of like duration you will be entitled to the retirement benefits you have earned to date in addition to an enhancement on your:

- 1995/2008 scheme benefits of 2/3^{rds} of your prospective membership up to reaching the Scheme's *Normal Benefit Age*.

OR

- CARE scheme benefits based on 50 % of your prospective membership up to reaching the Scheme's *Normal Benefit Age*.

For the purpose of ill-health retirement benefits the following expressions mean:

- **retires from pensionable employment:** your employment must be terminated on grounds of ill-health;
- **permanently incapable:** you will not be able through your medical condition, subject to appropriate medical treatment, to return to your HSC work before the Scheme's *Normal Benefit Age*;

- **efficiently discharging the duties:** producing the result required efficiently;
- **“that employment” for Tier 1 pension:** the post or posts to which your contract of employment relates;
- **“regular employment” for Tier 2 pension:** in addition to being permanently incapable of your own HSC employment, you must be permanently incapable of regular employment in the general field of employment of like duration to your HSC employment, that is either whole time or part time;
- **appropriate medical treatment:** such medical treatment as it would be normal to receive in respect of the condition(s) giving rise to your application for ill-health retirement benefits;
- **Scheme’s Normal Benefit Age:** linked to your State Pension Age for the 2015 Scheme, Age 60 for the 1995 Section and Age 65 for the 2008 Section of the Scheme.

This will require the submission of a report on your health which will be provided by your employer’s Occupational Health Doctor at Part C of this form. HSC Pensions Medical Advisers may also take account of information obtained from your own General Practitioner or Consultant Medical Specialist.

When completed, this application form must be sent by the Occupational Health Doctor to HSC Pensions using the confidential envelope provided.

If you qualify for ill-health retirement benefits you must complete form AW6 to request payment of these benefits.

B

To be completed by the member.

Please read the guidance about release of medical information before completing this section, then sign and date the declaration and consent on the next page. Failure to provide information will result in your application being delayed or rejected.

HSC Pensions Branch needs a report from *your doctor at **Part C** of this form, so that it can consider your application for ill-health retirement benefits. (*This means any doctor who has treated you, or cared for you, or who has been involved in diagnosing your condition, and includes an Occupational Health Doctor.)

Access to Medical Reports Act 1988

Medical reports your doctor prepares for HSC Pensions are subject to the 'Access to Medical Reports Act 1988'. Under that Act you can either:

- allow your doctor to send it straight to HSC Pensions without you seeing it first, or
- ask to see the report **before** they send it to HSC Pensions, or
- you can instruct your doctor **not** to send the report to HSC Pensions at all.

Reports written by a doctor who has not been involved in your treatment, care or diagnosis or medical records that already exist, are **NOT** subject to the Access to Medical Reports Act 1988.

If you decide that a report requested by HSC Pensions can come straight to us without you seeing it first, you can still ask to see it at any time up to 6 months after we receive it.

The 'Consent' you sign will tell your doctor whether you wish to see any report they prepare before they send it to HSC Pensions. If you decide you want to see the report **before** your doctor sends it, you have 21 days from when HSC Pensions asks for the report to let your doctor know that you wish to see it. You can view the report for free, but your doctor is entitled to charge you a reasonable fee if you want a copy for yourself. Your doctor can withhold all or part of the report from you. But, if they do so for professional medical reasons, they must tell you that they are doing so.

If you think that the report your doctor has prepared is misleading or incorrect in any way, you can ask them **in writing** to amend it. Your doctor can refuse to amend the report, but if they do they will invite you to send a letter with your comments that they can attach to the report, before they send it to HSC Pensions.

Release of medical information and examination by an independent doctor

In order to clarify or confirm certain aspects of your medical condition HSC Pensions may sometimes need to ask for other medical, or relevant information (eg from your GP, Specialist or employer). We may also need you to be examined by an independent doctor. So that they understand what you are claiming for we might need to pass any or all of the reports and medical or relevant information to them. HSC Pensions will also need to pass all the information it gathers to its Medical Advisers. If you do not agree to the release of reports or other information about your medical condition, HSC Pensions may be unable to consider your application for benefits.

Annual Allowance

From 6 April 2011 HMRC (HM Revenue and Customs) changed the rules governing the amount of pension savings a person can build up and also gain tax relief on each year. This is known as the Annual Allowance. HMRC reduced the Annual Allowance from £255,000 to £50,000 a year. The Annual Allowance limit covers all your pension savings, except your State pension, so any other pension savings, e.g. AVCs or a personal pension must be added to the value of your HSC pension and then if you exceed the £50,000 limit you may be subject to an Annual Allowance charge.

The annual allowance measures the growth in your pension benefits in the HSC Pension Scheme. When retiring on ill health grounds, you are more likely to be affected by this change if your application for ill health retirement is accepted and the pension and lump sum you receive are increased. This normally happens if you are awarded Tier 2 ill health retirement benefits.

If you exceed the £50,000 limit you still might not have any Annual Allowance charge to pay. You can carry forward any unused Annual Allowance that you have not used from the previous three tax years to the current tax year. The maximum you can carry forward is £50,000 for each of the previous three tax years. The amount of the unused Annual Allowance can then be added to the current year's Annual Allowance. This can give you a higher amount of available Annual Allowance. In such instances any growth in excess of the Annual Allowance may therefore be partially or fully offset by the carry forward allowance.

For more information visit www.hscpensions.hscni.net. You may wish to consider taking tax advice if you think you may be affected.

Severe ill-health – HMRC Test

Important - The following information is only relevant if:

1. You are accepted for Tier 2 ill Health retirement benefits
2. Your HSC Pension Scheme benefits also exceed the Annual Allowance

HMRC dictate that if you draw benefits on the grounds of severe ill-health you will be treated as having no pension saving under the arrangement paying that benefit for the relevant scheme year. As such you would be exempt from the Annual Allowance tax charge for that year. There are two circumstances when this can happen:

- Where you draw all your benefits and we receive evidence from a registered medical practitioner that you are suffering from ill-health which makes you unlikely to be able to undertake gainful work other than to an insignificant extent, in any capacity, before reaching State Pension Age

Or

- An application to commute ill health retirement benefits has been accepted and you meet HMRC's requirement (this is normally where our Medical Advisers have confirmed you have less than 12 months to live).

If your application is accepted for Tier 2 Ill Health benefits, HSC Pension Service will normally check whether:

- You are over the annual allowance in the NHS Pension Scheme in the relevant scheme year
- You meet the conditions of the HMRC Severe Ill Health test

HSC Pension Service provides this service free of charge to HSC Pension Scheme members, in order to assist them in establishing their NHS Pension Scheme annual allowance position.

Members should note that they may still be liable for any annual allowance tax charge in relation to other years, and that the test is only applicable to HSC Pension Scheme benefits.

Relevant Scheme Year

The Relevant Scheme Year is a scheme year that:

- Ends in the tax year that the member becomes entitled to benefits or
- Began in a scheme year in which the member became entitled to benefits but ended in the following tax year

Data Protection Act 1988: Fair Processing Notice
